## Test Correction Procedure

You have one week to complete test corrections. The week begins the day that your graded test is handed back to you.

You may get help from your classmates, parents, or Ms. Sneider (please make an appointment before or after school). However, make sure you understand your errors so that you can explain them clearly.

You must do the following on the Test Correction Form below:

- Indicate the number of the problem that you got wrong
- Write at least two complete sentences explaining what your error was and what you need to do to correct it. You must write enough to prove that you understand the problem now.
- Show all work to correct the problem and include the right answer.
- Attach the Test Correction Form to your exam and hand both in.

## You can earn as much as half of the missed points back.
